Site~Rite® 8 Ultrasound System Instructions For Use Addendum
Probe Connection Instructions

Turn off the Site~Rite® 8 Ultrasound System Console before connecting or disconnecting the Site~Rite® 8 Ultrasound Probe.

For a complete list of warnings and cautions, as well as information regarding how to handle, clean, and use the Site~Rite® 8 Ultrasound Probe with the Site~Rite® 8 Ultrasound System, please consult the Instructions for Use that were shipped with the Site~Rite® 8 Ultrasound System Console.

For a copy of the Site~Rite® 8 Ultrasound System Instructions for Use, go to www.bardaccess.com, or call Bard Access Systems Technical Support at 1-800-545-0890.

To Connect Probe:

Align probe connector and gently insert into the console

To Remove Probe:

1. Press the two latches on the probe connector
2. Gently pull on the connector to disconnect the probe

**Note:** If the EC204 error appears, connect/reconnect the probe and restart the system.

**Caution:** Do not force the probe connector; damage to the connector and system could result.

An issued or revision date for these instructions is included for the user's information. In the event that two years have lapsed between the issued revision date and use of the product, contact Bard Access Systems, Inc. to see if any additional product information is available.

Revision date: August 2017
